

Hello World

Congratulations for officially become a BINUS University student. This is a test problem for you to test on, and today's "After Class Review Quiz" result **won't affect** your Assignment Score (Nilai TM). So try to learn as much as you can about this system you will be using in this 1st semester.

For this first test problem, simply output a text that says "Hello World!".

Format Input

There will be no input in this test problem. So no need to use any scanf-related function to get an input.

Format Output

You need to output only a line that says "Hello World!" (without the quotes). Please look below for the sample output. **REMEMBER!** If you output unnecessary character(s), the system will give you "Wrong Answer" instead of "Correct".

Sample Input (standard input)

— no input will be give<mark>n</mark> —

Sample Output (standard output)

Hello World!

Notes

Note 1: If you print "hello world!", "hEllo World!", "Hello world!", or any other variations, it will resulted to "Wrong Answer". Your output need to be **exact match** to what the problem asked.

Note 2: Always print a newline ('\n') at the end of the answer.

Hello World

Selamat untuk Anda karena secara resmi sudah menjadi mahasiswa BINUS University. Ini adalah contoh soal yang dapat Anda coba, dan hasil "After Class Review Quiz" hari ini tidak akan memengaruhi Assignment Score Anda (Nilai TM). Jadi, silahkan coba sebanyak mungkin sistem yang akan Anda gunakan pada semester 1 ini.

Untuk soal pertama, Anda cukup mengeluarkan teks yang bertuliskan "Hello World!".

Format Input

Tidak akan ada input dalam soal ini. Jadi, anda tidak perlu menggunakan fungsi scanf untuk mendapatkan input.

Format Output

Anda hanya perlu mencetak 1 baris yang berisi "Hello World!" (Tanpa tanda kutip). Silakan lihat contoh output di bawah. INGAT! Jika Anda mencetak karakter yang tidak diminta, sistem akan tidak akan memberikan hasil "Correct", melainkan "Wrong Answer".

Sample Input (standard input)

— Tidak ada input yan<mark>g di</mark>be<mark>rikan</mark>

Sample Output (standard output)

Hello World!

Notes

Note 1: Jika anda mencetak "hello world!", "hEllo World!", "Hello world!", ataupun variasi lainnya, maka program anda akan dianggap salah dan mendapatkan hasil "Wrong Answer". Output dari program anda harus sama persis dengan apa yang diminta oleh soal.

Note 2: Selalu cetak karakter newline ('\n') di akhir jawaban anda.
